A School Story

At the examination of the pupils in a primary school a short time ago, the inspector put questions at random to the scholars. Among the latter was a red-headed lad, who, or being asked how many days there are in a year, answered "seven." Whet the tittering of the reat of the class subsided, the inspector remarked:—"I said a year, not a week. Now try again. How many days are there in a year?"

The lad appeared nonplussed and vexed for a moment, and then ejacultused.

What Will Canada's Answer Be?

VER in the sodden trenches amid the bursting shells and the roar of artillery where Canada's boys are fighting and dying.

-they are waiting for Canada's answer when the sale of Victory Bonds begins.

CANADA'S soldiers expect that we at home will put up the millions they need to keep on fighting,

—the millions they must/have to win Victory for freedom, home and Canada.

What answer will Canada make? What answer will you make?

Shall it be said that Canada spares not her sons from the sacrifice of battle, yet withholds her dollars to give them victory?

Rather will it be said that Canada once more, for the fourth time in three years, cheerfully puts up her millions upon millions for the cause of freedom, righteousness and justice.

Canada's answer must be,

that the Canadian hand to the plow of Victory holds stead fast and firm

-that Canada is in deadly earnest when she says the "last man and the last dollar."

That is the answer Canada will give to our boys in the trenches, our kinsmen in Britian, and our Allies everywhere.

That is the answer we will give to the Huns who thought and said that Canada would desert the Empire before she would fight or pay.

Every bond you buy is an answer. Let the millions of answers from Canada's loyal men and women make a chorus of Victory to ring around the world.

It is a curious circumstance that lecretofore the leaders of all mutinies, except that in Russia, have been anxious to deal gently with their officers. Not so in Germany, for in the revolt of the four battleships and discipline one captain was thrown overboard and the fate of the other officers remains so far undisclosed. Is it any wonder, then, that such a revolt should be organized when, as illustrative of Germans of Germans of Germans of the discount martial, could of his own will decree that one out of seven mutiners should be hanged and others be senenced to years of imprisonment of the discount martial, could of the most preynant illustrations that its doom is scaled is that afforded by the attempt unsuccessful as it has been, to secure peace by the mutiny affoat.
